

venetian blinds

measuring instructions

Please take all measurements in mm

Always use a steel tape measure.

- All of our blinds can be fixed into the face of the window frame or wall, or into the top of the lintel - allowing you total control of the depth your blind can be positioned in the depth of your window recess.
- Choose whether you want the blinds to hang inside or outside the window recess.
- Please check for the proximity of adjacent walls, furniture, window handles etc. when measuring for your blinds.

Recess

For blinds to hang inside the window recess: Measure the drop by taking the measurement from the top of the recess to the window sill, in three places as shown. Measure the width of the window recess from wall to wall, in three places as shown. Take the smallest measurement. We will make all adjustments to ensure your blinds fit perfectly.

Exact

For blinds to hang outside the window recess: Measure the exact area you would like the blind to cover as shown.

aftercare

Look after your blinds by following the straightforward operating instructions below.

Operating

- The cord on the Venetian operates the height of the blind.
- The wand operates the angle of the slats.
- To raise the blind pull the cord down until the blind reaches your desired height.
- To lower the blind pull the cord across the face of the blind to release the cordlock and let cord slide through your fingers.
- To adjust the angle of the slats twist wand until they are at the desired angle.
- When raising or lowering the blind slats should be in the open position.
- **Please note:** Venetians do not close totally - it is the nature of the product.

Cleaning

- Your Venetians simply need to be dusted.
- Use a dry duster, a damp cloth or vacuum cleaner with wall-cleaning attachment.
- Care should be taken not to bend slats while cleaning.
- If your blind becomes very dirty wash it with soap and water.
